

Exposing the Threat to Israel!

by Jay Sekulow

It has been well documented that Iran directly influences Hamas, with many calling Hamas a "puppet" terrorist organization for Iran. Now, Iranian President Ahmadinejad's spiritual mentor is calling for suicide attacks against Israeli civilians - including Israeli children - saying that such attacks are not only "allowed," but are even "an obligation..."

The impact of these statements cannot be underestimated. It is clear that Hamas has the blessing of Iran to continue its brutal terror attacks against the people of Israel.

To side with Hamas is to not only side with the terrorist organization, but also to fuel the dangerous Iranian regime. We must show our support for Israel against these outrageous attacks.

Stand with Israel, and send a powerful message to President Obama that we must support our greatest ally in the region, not the terrorists - Hamas and Iran. Sign our Petition to Protect Israel, Not Terrorists.

In appreciation for taking action in support of Israel, I would like to give you two vitally important resources absolutely free - the ACLJ's powerful full-length film, *The Export: Radical Islam's Map to End Democracy*, and our new booklet, *Shari'ah Law: Radical Islam's Threat to the U.S. Constitution*.

In *The Export*, world-renowned experts in Middle East affairs detail for you the threat of radical Islam. This film specifically explains the background behind Iran's dangerous influence on the region, including its control over Hamas and the threat that poses to Israel.

Our booklet on Shari'ah law focuses on the system of laws that radical nations like Iran and Islamic terrorist organizations like Hamas wish to impose on the entire world, including here in the United States.

These resources are critical for you to understand the drastic nature of the threat to Israel and the world.

The threat posed by Hamas and its Iranian backers against Israel continues to grow daily, and it is one we must take very seriously.

Hamas has not only succeeded in infiltrating the Palestinian Authority by joining in the "Unity Government," but there is evidence that their terrorist influence is radicalizing the Palestinian government. Today, there are reports that members of Fatah – the supposedly "moderate" party that has joined with Hamas to form the "Unity Government" – are doing exactly what Ahmadinejad's spiritual mentor has urged and are now under investigation for planning suicide bombings against Israeli civilians.

We must urge President Obama to reverse his support for the Iran-backed, terrorist-led

Palestinian government, stop fueling the terrorists with the use of their language by calling Israel a force of "occupation," and withdraw his call for Israel to return to the indefensible 1967 lines.

Let Israel know that despite what the President says - the American people support Israel. Join with the thousands of other Americans who have already done so, and sign our Petition to Protect Israel, Not Terrorists.

It is crucial for us to take a stand now, before Hamas joins the Palestinian Authority, which could occur within the next two weeks. If you have already signed this petition, thank you! I urge you to forward this e-mail to your friends and encourage them to stand with Israel and receive their free copies of The Export DVD and our Shari'ah Law booklet.

Thank you again for your support for Israel and the ACLJ. As always, I will continue to keep you informed as events unfold in this critical matter.

Sincerely,

Jay Sekulow,
