

SMALL STRAWS IN A SOFT WIND by Marsha Burns -- 6/17/11:

Patience Is A Virtue

As you have heard, patience is a virtue and is the ability to endure and not quit. But you, beloved, have thought of impatience as being antsy and impetuous when it really is the offspring of a spirit of divination, which tries to control. If you can see impatience as being beyond your sphere of responsibility and outside of your boundaries, you will be able to overcome it easily. Then, it is simply a matter of staying in the flow of the things you have legitimate authority over and minding your own business. And, I am with you to help you in this process, says the Lord.

2 Timothy 4:2 Preach the word! Be instant in season and out of season. Convince, rebuke, exhort, with all longsuffering and teaching.
